

Using Cleaning Supplies Safely Around Pets

Calls to the ASPCA Animal Poison Control Center involving cleaning supplies have increased by

65%

It's important to remember that products intended to clean surfaces and keep us safe from viruses and bacteria might not be so safe for our pets. Keep your furry family members top-of-mind when cleaning with our handy guide!

Follow label directions for use and dilution instructions

Avoid mixing cleaning products

Keep curious pets away when using cleaning products

Let the product dry before allowing your pet back into the area

Air out any areas with a strong smell before allowing your pet in the area

Use aerosols with caution around birds

Call your vet or the ASPCA Animal Poison Control Center if your pet has an exposure to cleaning supplies
